NEW COLLECTION

Assurance of Design, Production and Quality Since 1956

With a production capacity of 5,000 plastic chairs per day and approximately 2,000,000 annually at our modern 25,000 m² production facility in Çatalca, Istanbul, we are one of Turkey's leading manufacturers. As a long-established family-owned company operating since 1956, we not only produce products but also deliver quality, innovation, and sustainable success.

A Rich Product Range, All Solutions from a Single Source

In addition to plastic chairs, we offer a wide range of uniquely designed furniture, including cafe furniture, cafe tables, wooden and metal chairs, bar stools, upholstered chairs, sofas, and many other uniquely designed pieces. We expand our collection with new products every year, making a difference with user-focused, timeless designs.

Exports to 45 Countries, Global Brand Vision

Today, we continue to grow our brand globally, exporting to 45 countries, primarily in Europe and the Balkans. Our experience in international markets, our cultural adaptability, and our on-time delivery guarantee make us a trusted supplier for our global business partners.

Nature Friendly · *Easy to Clean* · *No Assembly Required* · *Stackable* · *UV-Added Paint* · *Hot-Cold Resistance* · *Impact Resistant* · *Indoor/Outdoor Use* · *Not Affected by Water*

BROWN · EKO · ANTHRACITE · WHITE

The Ege Chair is a practical seating solution that blends in with any environment with its simple and classic design and offers space-efficient armrestless design. Made from 100% polypropylene using a single-piece injection molding process, it is suitable for both indoor and outdoor use thanks to its UV, impact, and scratch resistance. Its spacious seating and ergonomic shape ensure comfort, while its stackability makes it easy to transport and store. With its variety of colors, the Ege is the ideal choice for those seeking an affordable and durable outdoor chair.

| TABLE LEGS

| Metal Table Legs

Metal table legs are manufactured from high-quality metal materials and treated with advanced cataphoresis coating technology, providing excellent durability, corrosion resistance, and long-lasting performance. Metal table legs are widely preferred for restaurants, cafes, hotels, gardens, terraces, and modern commercial spaces. Thanks to their water-resistant and UV-resistant protective coating, they offer exceptional stability, elegant design, and reliable performance for both indoor and outdoor furniture applications.

| Composite Table Legs

Composite table legs are manufactured by combining different materials (usually plastic, fiberglass, carbon fiber, or resin-based blends).
Composite table legs are often preferred for garden furniture, modern office desks, cafes, and restaurants.
If you're looking for a stylish and durable option, they're a particularly good choice for outdoor use.

Patented Products, Original Designs

The majority of our products are registered and patented. This is one of the key features that distinguishes us from conventional manufacturers. All our designs are developed by our R&D and design team using our own custom designs, carefully balancing functionality and aesthetics. We maintain our dynamism in the industry by launching a new product every year, and we carry innovation in our DNA.

Quality Certified, International Production Approach

Our production system, which holds ISO and CE certifications, reflects the importance we place on quality. We implement rigorous quality control processes at every stage of production, delivering reliable products in both domestic and international markets. With our expert team of 200, we meticulously manage every process from production to shipping, providing our customers with timely, complete, and high-quality service.
